Engineer specialized in Project Management, with a strong strategic and organizational component.

Leadership and decision-making abilities. Planning, risk analysis and crisis management abilities. Trading and negotiation skills. Inquisitive and alert to new technologies and optimizing processes.

Coordination capacities and project/equipment planning. Strategic vision in the use of new technological tools in the company and a clear commercial profile. Accustomed to working with multidisciplinary teams. A multipurpose and balanced profile resulting from the capabilities of my training on engineering and management, with personal skills aimed at communication.

WORK EXPERIENCE

PMO in Amaris

2019-2020

- Development of the company's Project Management methodology.
- Implementation of KPIs and processes related to projects.
- Cross-cutting Leadership of the company's PMs (21 PMs in 7 countries on 3 continents).
- Generation of training and its application to the PMs and teams in processes associated with this function.
- Contribution to the general processes of the company to strengthen and optimize efficiency in the project life cycle.
- Preparation of monthly reports and identification of risky and critical projects.
- Leadership in updating the tool for managing company projects.

Highlights:

- Update and modification of internal company processes related to the project life cycle.
- Identification of the ideal project management tool for the company after preparing a requirement plan.
- Establishment of the methodology, processes and specific pieces of training for the PMs.

Head of PM in Indissoluble

2019

- As Head of PM:
 - Planning, management & supervision of projects. Control of the correct evolution day to day according to the previous planning. Negotiation and search for solutions in case of incidents.
 - Optimization of company processes.
 - Supply Chain management.

Highlights:

- Development and implementation of the first manual of company procedures and responsibilities.

PM and DIRCOM in GECOM**2016-2018**

- As PM:
 - Capturing of large accounts.
 - Managing of the whole project life cycle
 - Production of projects in Germany, Italy and France.
- As Business Developer:
 - Development of an international suppliers' network.
 - Development of new line business.
- Head of Corporate Communication and Internal Communication

Highlights:

- +800.000€ of turnover as PM.
- SCP and ICP: creating and applying the first Strategic Communications Plan 2017/2020 and Internal Communications Plan in the company.
- Development of a new business area.
- Searching for and applying the new CRMs and Project Management tool.

PM & Consultant as Freelance**2012- 2016**

I worked as a Project Manager in LEED Certifications and as a Consultant on projects:

- LEED Certifications Management.
- Business duties for attracting new clients, creating offers, establishing teams, management, establishing quality and deadlines.

Highlights:

- First LEED Certification of a student housing in Spain (Bilbao BBK Talent)
- Agora-econscience Project: Creating and marketing the sustainable "Agora-Econscience" for Agoranet. Bizkaia Sarean Second Price in the Sustainability Category.

Project Manager at IDOM**2007 - 2011**

A company dedicated to engineering projects where the position held was Project Manager and LEED Manager. I was mainly focused on creating and managing teams, managing deadlines, costs and risks. Constant contact with the client.

As Project Manager, I stood out in the following projects and achievements:

- SAN MAMES BARRIA stadium project (including managing access to the stadium (7 people and 17 million euros). Compliance on costs, deadlines and needs.
- Renovation project of the UPV/EHU Bizkaia Campus.
 - Arboretum Project: compliance on project costs and deadlines.
 - UPV/EHU Rectorate: modifying the construction needs and managing successful construction works.
